### TEN FEET OF SNOW

IN THE STREETS OF HALIFAX.

Hardly a Wheel Turning on the Railways of the Seaboard Province.

Halifax, Feb. 17th. — Nova Scotia is experiencing the worst storm of the season. No train entered Halifax all day yesterday. Street cars are all tied up.

#### EDMONTON

#### "PRACTICALLY ADMITTED" CAPITAL.

Calgary, Feb. 17th. — In a despatch from Ottawa, W. M. Davidson, one of the Calgary delegates, announces that it is "practically admitted" there that Edmonton will be the Provisional Capital of the Western Province.

Hardly a wheel is moving from one end of Nova Scotia to the other. The city coal supply is running short. In the city the snow is piled ten feet deep in the streets and the electric sweepers are stalled and have to be dug out by gangs of men. Half the railway lines in the province will have to be shovelled out before traffic is resumed. The consequences of a continuance of the storm may be serious, and great hardship has already resulted.

## MONROE DOCTRINE

ILLUSTRATED AT PANAMA

The United States Seizes San Domingo's custom offices

Washington, D.C., Feb. 17. — In his message to the Senate, President Roosevelt announces that the customs offices of the Republic of San Domingo have been seized by the United States and reiterates the Monroe doctrine to the effect that the U.S. Government "Views any attempts on the part of Governments outside this hemisphere to oppress the destiny of the Dominican Republic as a manifestation of unfriendliness toward the U.S."

#### Temperance Men Dissatisfied.

Bulletin Special.

Winnipeg, Feb. 17th. — The Royal Templars in annual convention here are extremely dissatisfied with the Conservative administration of this province. They condemn the increase in licenses and say they were issued in defiance of law. The High License enactment does not please them either. They say it is in the interest of the liquor men after all.

#### Boy Shot Himself.

Bulletin Special.

Gilbert Plains, Man. Feb. 17th. — Charles Sanders, the 15 year old son of John Sanders while shooting rabbits accidentally shot himself, the ball from the rifle piercing the abdomen. His recovery is doubtful.

#### Will Start Iron Works.

Bulletin Special.

Toronto, Feb. 17th. — MacKenzie & Mann have just completed the formation of a million dollar concern known as the Atkokean Iron Co. for mining and manufacturing ore, pig iron and steel at Port Arthur.

## PARLIAMENT.

## AS TO A SHORT SESSION.

Although this was promised to be a short session of parliament, the indications so far are that it will be at least of usual length. Almost a month has passed since the opening, and business has practically only begun. The most important committee of the house, that of railways, has not yet held its first business meeting, and indeed all the standing committees are in practically the same position.

## THE USUAL TACTICS.

The main estimates have been the principal business occupying the attention of the House, and some progress has been made in them, but not such as would justify the expectations of an unusually short session. The Attorney General, which was promised as the main business of the session is expected down next week. No matter what form it takes, there will no doubt be a great deal of discussion upon its provisions and following the practice of other sessions, the Opposition are inclined to hold back all other business until that has been reached.

## REAPPEARANCE AFTER ECLIPSE.

In this case they have the better than usual excuse that they are without a leader until yesterday. Although the talents and experience of Mr. Foster on his re-appearance in public life, coupled with the disappearance of Mr. Borden, might naturally have been expected to place him in the leadership, the wise ones of his party have reached the determined conclusion that it is not to be; and Mr. Borden, buried in the wreck of his opposition to the Grand Trunk Pacific, with the unanimously adverse vote of his native province heaped on top has been resurrected and brought again into public life and leadership through the medium of the ever-faithful county of Carleton and its complaisant representative, Mr. Kidd.

## A TRIBUTE AND A CONDEMNATION.

Personally, Mr. Borden leaves nothing to be desired as a gentleman, a lawyer, or a member of Parliament, but his gifts of leadership have, to say the least, not yet been demonstrated. Looked at from the standpoint of an outsider, it is more than strange that with men of superior parliamentary ability within the party, such as Mr. Foster and Mr. Clarke of Toronto, the leader of such a losing fight as the last election was should be again brought forward and installed with more than usual honors in his old position. It is certainly a tribute which might be enough to turn the head of any other man but himself. But what must be the standing of other possible candidates for the leadership in the mind of the party at large when they are so passed over. It looks as though the unity of the purpose which is the first necessity of success is still lacking in the party of the Opposition.

## MR. BORDEN IN REDUCED.

The most important business of yesterday was the introduction of Mr. Borden, fresh from his election by acclamation in Carleton County escorted by Messrs. Foster and Monk, —the one he had just superseded, and the other he had less than a year ago turned down as leader of the French-Conservative party in favor of Mr. Tarte, who now looks down benignly upon the House proceedings from the Reporters gallery, where he ably represents his paper, "La Patrie". Sir Wilfred made a short speech of welcome on the entrance of Mr. Borden, which was gracefully acknowledged by that gentleman.

## WESTERN CENSUS IN 1906.

The bill of the Minister of Agriculture to establish a permanent Census bureau was discussed at length in committee and several clauses agreed to. The intention is to compile statistics relating to the various industries of the country during the period between the regular census year, which occurs ten years apart. Pro-

# MONARCH RANGE...

There is no question as to what this Range can do or its durability, as thousands and thousands of them are in use on this continent and so far as we have been able to learn no fault has yet been found with them.

The main body of this Range is built up of sheet steel, and all the other parts that require to be cast are malleable iron. The top is ground to a bright steel finish, and is so heavy that, no matter how long or how hot you heat it, you cannot make it warp or get out of shape.

You will notice that the oven has a drop door, and the above cut illustrates the strength of this door, as any man can stand on it when it is open without straining it in the least. This will give some idea of the strength of the Stove, as all its parts are as strong as this cut of the oven door open with the salesman standing on it would convey to you.

It is a wonderful baker, a very quick heater, and its water front is so constructed that it will heat water nearly twice as quick and on a much less quantity of fuel than any other Range now on the market.

The purchaser of a MONARCH RANGE insures a satisfaction that cannot be measured in dollars and cents, for at the end of ten years' use it will operate as easily and be just as good as when first started.

Remember the MONARCH when you want to purchase a Range.

## LAND PARLIAMENT

### DISCUSSED BY THE MINISTERS

It is considered that patriotism might be produced by granting reforms

#### Bulletin Special.

St. Petersburg, Feb. 17th.—The Czar presided yesterday at a Council of Ministers who favorably discussed a scheme for the amelioration of affairs in Russia and the advisability of calling the much talked of Zemsky Sabor or Land Congress which it is said will create a wave of patriotism throughout the empire.

### SUCCESSFUL POULTRY SHOW.

Amid the cackling of hens, the crowing of roosters, the hissing and quacking of geese and ducks and the barking of dogs The Alberta Pet Stock and Poultry Association are holding their second annual exhibition in Robertson's hall this week.

Many are the exclamations about the deafening noise, when people first arrive in the hall but this is soon forgotten by all interested in seeing fine poultry and the other animals there on exhibition, for all seem to think that it is the best exhibition of its kind ever held in the district.

There are dogs from the smallest of terriers up to the large St. Bernard, several of the feline family and last but not least nearly 350 fowls of all descriptions.

The exhibitors are mostly residents of Edmonton or of this district, but there are several from points distant that have shipped in. Among these are: Geo. W. Scott of Innisfail who is present with a fine collection of white Plymouth Rocks. D. S. Lee of Red Deer exhibiting his Buff Orpingtons; A. W. Faal also of Red Deer with his Andalusians and games, and C. E. Stenton of Banff showing quite an exhibit of Black breasted game bantams.

Several of the farmers near Edmonton have brought in some as fine specimens of fowls as one would see anywhere.

C. D. W. Macdonald of this city has by far the largest exhibit having 83 birds on the bench.

In last year's exhibition held in Strathcona, there were but 225 entries which causes the members to feel that with nearly double the number of exhibits this year, they are meeting with good success and arousing an interest in these displays.

### EDMONTON DELEGATES BUSY.

Ottawa, Feb. 15.—The Edmonton delegates waited on Laurier and Mulock at noon to further the selection of the capital site of the new province. The speakers were Oliver, Cross, Cornwall, Morris. Consideration was promised.

## The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting one 20, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

**ENTRY.**—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

**HOMESTEAD DUTIES.**—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres sub-irrigated.

The privilege of a second entry is

restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,  
Deputy Minister of the Interior.

N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

## THREE YEARS OLD

WHEN the tobacco I have personally selected in Cuba is delivered at my factory, I begin a special treatment to still further cure it—develop its delightful aroma.

This special treatment requires two to three years, depending on the "crop."

I work it thoroughly—through various processes of fermenting and drying in specially made apparatuses that enable me to keep the tobacco in each process at certain fixed temperatures and moist or dry at such a degree of humidity—necessary to bring out the virtues I insist on in each cigar.

By having the filler so aged and treated, I make my Pharaoh a smooth, palatable smoke—one with a delicate incense-like flavor and very even combustion.

The binder and wrapper are the Connecticut Broadleaf and the imported Sumatra respectively—both tobaccos that delight the epicure.

## POPULATION, 7,500

### CITY GOVERNMENT:—

Mayor, K. W. MacKenzie; Aldermen, C. May, K. A. McLeod, W. H. Clark, D. R. Fraser, J. R. Boyle, T. Bellamy, J. H. Picard, W. A. Griesbach.

Conveniences:—Waterworks, sewer systems, telephone system, electric lighting system, all owned and operated by the city.

Board of Trade:—President, J. H. Morris, Secretary, F. F. Tims.

Immigration Officer:—C. W. Sutter.

Educational Institutions:—Public and separate schools, high school, Alberta College.

CHURCHES:—Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:—Leaves for Strathcona 7.45 and 15.30. Arrives from Strathcona 9.15 and 11.50.

## LOCAL

—Train on time.

—The city council meet tonight.

—King vs. McNamara is being taken up in the Supreme court today.

—A wrestling contest will take place in Robertson hall on Thursday evening next.

—A plant for the manufacture of pressed brick is to be started at Sandstone, near Okotoks.

—Farmers Local Union meeting will be held at Belmont school house Thursday February 23rd at 7 p. m.

—Clarke's Orchestra left town today for Leduc, where they have been engaged to supply the music for a ball at the Leland Hotel.

—Instead of the regular literary meeting a skating party will be held on the Alberta College rink this evening commencing at 7.45.

—The funeral of the late Louis Valour Gauvreau took place from the family residence, corner 5th street and Peace avenue this afternoon.

—Public hospital benefit at the skating rink tonight. Skating races and an amateur hockey match promise to provide good entertainment.

—The Bulletin has been asked to call the attention of the civic officials to the unseemly and unhealthy condition of many of the lanes and alleys in the city.

—Engineer Turgeon is the originator of a quick locking device which has been installed on one of the cells of the new lock up. The lock is designed to enable a policeman to lock the cell door quickly after putting a refractory prisoner inside, the regular lock being afterward fastened. The new arrangement also acts as an auxiliary to the regular fastenings.

—As the result of a police investigation, the cause of the burning of the barn on Mr. Melbourne's farm near Sprucegrove as reported in the Bulletin of the 13th is attributed to the custom of throwing live coals in the chicken house to make the place warm. In some manner these are supposed to have come in contact with some in flammable substance and as a result the barn and chicken house were burned down with the two horses which were within and which it was impossible to get out.

—Free Press:—Mr. Frank Mariaggi has returned to the city from Toronto where he went to purchase furniture for the Mariaggi hotel in Port Arthur, which he is refurnishing throughout. Mr. Mariaggi still believes that the Grand Trunk Pacific railway terminals at the head of Lake Superior will be located at Bear Point, Port Arthur. He is confident that the Royal town will be larger than Duluth within ten years, and will be an important manufacturing centre. Mr. Mariaggi's latest project is to establish a system of Mariaggi's hotels from Port Arthur to the Pacific coast.

—The driving club are holding a matinee on the exhibition grounds this afternoon.

—Calgary Herald:—There is a note of alarm for western Canada in the statement that several big steamship companies have reduced the fare for immigrants to Galveston, and other remote southern ports, while advancing the charges to New York and Canadian ports. For two years past the railroad companies of the southern states have been alarmed at the steady flow of immigrants into western Canada. Many of those entering the port of New York find their way to Canada, to say nothing of the movement from the western states into this region. Evidently this is a plan devised to discourage the Canadian movement. Just what influence can be exerted to off of the scheme is difficult to figure out, but that the question ought to engage the serious attention of the Dominion authorities is obvious.
